

**For**

**Design school is not about technology.**  
**It is about art and culture, form and structure.**

**What you're buying is not a ticket to get a job.**  
**It is a face-to-face, collaborative experience**  
**in a physical space.**

**Against**

**Design education is broken**

**Design education is for an old system**

**It's five years behind, not up to current standards**

Is formal design education a **necessity** for Practicing Designers?

Can you be a successful designer **without** a formal design education?

**What key competencies**  
**do you expect**  
**from a graduate?**

**What aren't we teaching?**  
**Specialist or generalist?**  
**Carbon copy or free thinker?**
