

Design Futures

Group members

Will Stronge, Lucienne Roberts, James Trafford, Lisa Gellender. Nicolai A. Bye, Sarah Willmott

Draft unit outline and content

Design Futures looks at both emerging design tools and the evolving roles that designers can look forward to mastering. These fields will include future fields of work in the face of automation, design responsibility, the creation of natural user interfaces, and new ways of reaching audiences and users with changing habits and modes of absorbing information..

.....

.....

.....

Indicative content could include:

Speculative design. Social responsibility of designers. Future patterns of work. Interaction and natural user interfaces. Emerging tools, UX / UI

.....

.....

.....

How might we..

Differentiate between the second and third year versions of this topic?

.....

.....

.....

Shape content to support less confident learners?

.....

.....

.....

Shape content to challenge high-achievers?

.....

.....

.....

Teach for competences required by industry now?

.....

.....

.....

Teach this topic towards possible industry futures?

.....

.....

.....

Further notes

.....
